Word Mapping Notes Sheet #4

1. The three types of morphemes are: Prefixes, Roots and Suffixes.
2. The steps of the Word Mapping Strategy are:
M ap the word parts.
A ttack the meaning of each part.
P redict the word's meaning.
S ee if you're right!
3. "Map the word parts" means that you find the word's p refix, r oot, and s uffixes.
4. "Attack the meaning" means that you translate each word part into its meaning.
5. "Predict the word's meaning" means that you put the three meanings together and make your best guess.
6. "See if you're right" means that you check whether the definition fits in the context of the sentence.
7. The mnemonic device to remember the steps is MAPS.
8. You use a Word Map anytime you want to figure out a word's meaning.
9. You use a Memory Table anytime you want to remember a word's meaning.
10. A good Memory Word contains the word parts and has a meaning that you know well.
