

Name: _____

1. Read this Story "Fabulous Frogs"

Frogs are amazing creatures! They can jump high and splash in the water.

Frogs come in many sizes. Some are big, and some are small. Frogs come in many colors, like green, blue, red, and even purple!

Frogs live in different places. Some frogs live in ponds, some live in trees, and some live in the rainforest!

Did you know frogs can make sounds? Some frogs croak, and some can even sing like a bird!

Frogs have sticky feet to help them climb. They have strong legs to help them hop far.

Some frogs are very loud, while others are quiet. Some frogs sleep during the day and wake up at night.

Frogs are great at hiding. Their colors help them blend into leaves and logs so no one can see them!

Baby frogs start as tiny eggs. When they hatch, they are called tadpoles.

Tadpoles have tails and live in the water. As they grow, their tails shrink, and they grow legs!

One day—hop! They become frogs!

Frogs are fascinating creatures. They are fun to watch and learn about.

What is your favorite kind of frog?

2. Answer the True/False Questions:
