Jocelyn Washburn, Ph.D.
Director of Professional Development
Associate Director
Assistant Research Professor
University of Kansas Center for Research on Learning

Jocelyn,

I am wholeheartedly recommending Rebecca Keenan for admission into the Learning Strategies Professional Developers Institute. Rebecca is a dynamic force in the classroom who practices the art of teaching effortlessly. She is well versed in implementing and delivering the LS curriculum. Her classroom observations have been positive. Her students were attentive and showed knowledge of the content that has been taught. Rebecca has also woven technology into her lessons. Her learning sheets had been reproduced on the computer, stored in students' online folders, and formatted for students to respond online.

In summary, Rebecca is the ultimate example of the type of teacher we want teaching other professionals. I have no doubt she will be able to excite teachers and guide them into effective implementation of the Learning Strategies Curriculum.

Respectfully,

Kendall Mcleod
