Apprentice Reflection
SIM™ Overview Presentation

Directions: To be completed by the Apprentice and shared with Mentor in the feedback session.

Questions	Comments
What went well? Why?	The turn & talk to reflect & share on that the learning needs they see addressed by SIM LS was
What would you do differently?	engaging, let participants get to know each other, & gave me good information on what they want/need → overall - shorten the time.
What trends (positive/concerns) did your evaluation data reveal?	Evaluations by participants were completed at the end of the a.m. / Fundamentals session. Positive feedback: "concise & impactful" "thorough" "enlightening"
What concerns were out of your control?	Starting late.
What will you do in the future to avoid these problems?	I will review the slides & see about reducing time (there is some overlap in the sws slides to consider.)
How can your mentor be of support to you?	I will read her feedback to see if I can add another next steps to the slides/PD

Planning.

Apprentice Reflection LS Professional Development Session

Directions: To be completed by the Apprentice and shared with Mentor in the feedback session.

Questions	Comments
What went well? Why?	Embedding examples from ^{CESD} students, curriculum, & SC Ready worked well. Doing so addressed how teachers feel pulled
What would you do differently?	I would shorten the amount of time used for the SIM overview to have more time for content & practice of FSW.
What trends (positive/concerns) did your evaluation data reveal?	The evaluation data was positive - trends included: <ul style="list-style-type: none"> ◦ deliver PD at start of school year ◦ positive to have time to review materials ◦ can improve by having more time to practice
What concerns were out of your control?	Starting late lost us about 15 minutes that we needed.
What will you do in the future to avoid these problems?	Shortening the overview will allow for more time / time lost to a late start & can allow for more teacher / participant talk & practice.
How can your mentor be of support to you?	I'm pinning the slides to put in a binder so I can see the speaker notes & when/what pgs in handouts

to target Tier 1 + teacher score

to refer to.
